NAMIBIAN EDUCATION FAIR

Marondera University of Agricultural Sciences and Technology (MUAST) participated in a two-day Education Africa Fair held in Ongwediva, Namibia, from 6-7 March 2025. The event, hosted at the Ongwediva Trade Fair Centre, brought together educational institutions from across the region, offering a platform to connect with aspiring students and foster academic collaboration.

The MUASt booth welcomed over 1,000 learners on the first day and approximately 900 on the second and final day. The dynamic presentations and engaging interactions captivated learners from diverse academic levels, Grade 11 students on 6 March and AS Level (Grade 12) students on 7 March. The booth provided insights into MUASt's diverse programme offerings.

MUASt was one of the three universities representing higher education at the event, together with Botho University (Botswana) and Chalimbana University (Zambia). Other notable participants included Study in Africa, Atlantic Training Institution, and Rundu Vocational Training College, all from Namibia. This mix of institutions highlighted a robust commitment to advancing education across the continent.

The learners at the fair expressed keen interest in the academic opportunities offered by MUASt. The event provided an invaluable networking opportunity, as MUASt initiated discussions on potential collaborations with other institutions, promising exciting prospects for future partnerships.
