

Marondera University of Agricultural Sciences and Technology sign a Memorandum of Understanding with Novosibirsk State Agricultural University

Marondera University of Agricultural Sciences and Technology (MUAST) received a delegation from Russia to establish a partnership through a Memorandum of Understanding (MOU). The delegation included Dr. Vladislav Babin, Vice Rector for Academic Affairs at Novosibirsk State Agricultural University and the SATCO Academic, Executive Director for International Business and Student Advisory Services, Mrs. Maureen Meda.

Established in 1935, Novosibirsk State Agricultural University is a prestigious public research institution in Novosibirsk, Russia. The university places a strong emphasis on integrating education with scientific research, involving students in research activities early in their academic journey and incorporating leading scientists in its teaching programmes.

The Vice Chancellors of the two institutions, Professor Justice Nyamangara, and Dr. V. Babin signed the MOU symbolizing a mutual commitment to enhancing agricultural studies and encouraging collaboration across various disciplines and areas of interest.

Both institutions are enthusiastic about the future collaboration outlined in their agreement. In his remarks, the MUAST Vice Chancellor expressed his gratitude and emphasized that MUAST will benefit from Novosibirsk State Agricultural University.
